## Civic and Social Groups

Every community has civic and social groups that allow people to become involved as members or volunteers. Create an annotated list of at least ten of these in your community. Each entry should give the name, address and contact information for the group, as well as any requirements to become a part of the group. Do not use more than two of any one type. In other words, list no more than two churches or two civic clubs and so forth.

Name of Group	Address	Contact Information	Notes
