

Creating an Effective Work Environment Project

You and two of your colleagues would like to open your own business. It is important to have an effective work environment to establish and maintain working relationships with all levels of personnel. What type of workplace will you design?

Instructions: As a group, you will collaborate and brainstorm with your group to create an effective workplace environment. You will present your information in a three-dimensional diorama display. The diorama will include:

- illustration of the business (floor plan)
- an area to:
 - collaborate with others
 - inspire creativity
 - have productive teamwork
 - provide open work spaces
 - be innovative
 - provide a well-designed office space
 - communicate with others
 - additional areas as suggested from group members
- description of each area and how it contributes to an effective work environment
- explanation of how leadership and teamwork skills contributed to the completion of the project

Your project will be assessed with Rubric for Creating an Effective Work Environment Project.

If needed, you may review the following Snapguide for instructions on how to construct the diorama:
