

## Emergency/Disaster Response Techniques Project

Scenario: Your team has been accepted into an internship program at a local business in the Human Services Career Pathway. The manager who is your mentor has requested that your team create a poster that focuses on creating a plan to respond to emergencies/disasters.

--

Select the type of job and the Human Services Career Pathway your scenario is based on (your choice):

Example: Cosmetologists are in the career pathway of Personal Care Services.

Type of job and the Human Services Career Pathway

---

Type of emergency/disaster \_\_\_\_\_

As a group, you will think of effective response techniques to deal with specific types of emergencies/disasters. You will incorporate your information on a poster board. The project must include:

- a clear focus on effective response techniques for a specific emergency/disaster
- five technology-based methods such as social media that can be used to respond to an emergency/disaster
- an evacuation plan
- steps for keeping employers, employees and clients safe

Information is required to be retrieved from reliable sources.

The project will be presented during class.

Project will be assessed with the Rubric for Emergency/Disaster Response Techniques Project.
