

Food Science Professions Research

Investigate a career in food science by using reliable sources from the Internet and/or reference books and the U.S. Bureau of Labor Statistics Occupational Outlook Handbook.

Be sure to focus on how this job applies to the food science industry. The following questions will help you achieve this focus.

- What is the job description?
- What are the duties for this career?
- What education/degree would be required to pursue this career?
- What school/college/university offers training for this career?
- How long would this education take?
- Is there an internship period required?
- Are any certifications or licenses needed for this career?
- What is the average salary one can expect to earn?
- What type of places could you work? (outdoors, a lab, a clinic, a kitchen)
- What are the daily expectations for someone in this career?

Be sure to cite your sources

Be prepared to present your investigation to the class using a multimedia program such as:

- **Blendspace™**
Creates presentations with a digital content
<https://www.blendspace.com/>
- **Glogster™ EDU**
A complete educational solution for digital presentations
<http://edu.glogster.com/?ref=com>
- **Microsoft PowerPoint™**
Slide show presentation
- **Prezi™**
Uses images and videos to enhance presentations
<http://prezi.com/>

Assessment will be with appropriate rubric.
